

Curriculum Vitae

Name and Surname:

Darius GURŠNYS

Education:

Higher

Date	Institution	Scientific degree
2012	VGTU	Associated Professor, certificate No.000235
2008	VGTU	Ph. D. of Technological Science, certificate No. DA000174
2003	VGTU	M. Sc. of Electronic Science, diploma No. MG 002269
2001	VGTU	Bachelor of Electronic Science, BG 003430

Pedagogical name:

Associate Professor

Scientific degree:

Ph. D.

Scientific field:

Technological Science (T000)

Science direction:

Electric and Electronics Engineering (01T)

Scientific branch:

Electronics (T170)

Scientific interests:

Telecommunication Engineering (T180)

Birth date:

1978 12 19

Languages:

Lithuanian, English, Russian

Current position

Date	Organisation	Position
From 2014	VGTU Department of Telecommunication Engineering	Head of Department
From 2008	VGTU Department of Telecommunication Engineering	Assoc. Professor

Currently Teaching subjects

Module Code	Studies	Subject
ELTLB11103	I cycle	Introduction to Telecommunication Engineering
ELTLB11703	I cycle	Software of Telecommunication Systems
ELTLB11402	I cycle	Internet Protocol Essentials

Other position

Date	Organisation	Position
From 2011	UAB „EML tyrimų centras“	Engineer

Previous work activities

Date (from–until)	Organisation	Position
2003 – 2008	VGTU Department of Telecommunication Engineering	Assistant
2002 – 2008	VGTU Department of Telecommunication Engineering	Head of Laboratory
2001 – 2002	AB „Vilniaus Vingis“	Radio Electronics Engineer

Qualification improvement

Date	Description
2013 m.	Traineeship UAB „Willibox“. 1 month

Participation in projects

Date (from – until)	Description
2005 –2005	„The system for evaluation of the individual quality of telecommunication services“. Supported by: The State Studies Foundation. T-05203. Project supervisor: Prof. A. Kajackas, VGTU. Executives: D. Guršnys and etc.

2006 – 2008	„ <i>Future telecommunication systems service quality dynamic studies and evaluation tools Synthesis</i> “. COST 290. Supported by: The State Studies Foundation. Project supervisor: Prof. A. Kajackas, VGTU. Executives: D. Guršnys and etc.
2008 – 2010	<i>Autonomous system for monitoring of the quality of telecommunication services</i> . Scientific research project in the scope of Development of Advanced Technologies Programme (sponsored by Lithuanian government and EU): reg. Nr. B08008. Project supervisor: Prof. A. Kajackas, VGTU. Executives: D. Guršnys and etc.

PhD students

Date (from–until)	Thesis Topic	PhD student
2012 – 2016	“ <i>Optimization of interconnection of different generations mobile networks</i> “. Technological Science, Electric and Electronics Engineering (OIT).	Karolis ŽVINYS
